Deoxidises, cleans and shines
Makes treated metal look brand new

Metal Polish

Properties

Polish specially formulated to treat metals (stainless steel, chrome, aluminium, copper, brass, silver...).

Its fine abrasive micro-crystals remove superficial scratches.

Deoxidises, cleans and shines at the same time thanks to its meticulously selected ingredients.

Makes treated metal look brand new.

Instructions for use

Respect usual safety measures for the use of chemical products and wear the appropriate individual protection equipment.

Work on a clean, dry surface. Dab some **Metal Polish** on a cloth and polish the surface to be treated in small, regular circular movements, focusing on scratches and oxidised areas. Then polish using a microfibre cloth.

Technical specifications

Physical state: viscous **colour:** white **pH:** ca. 9 **density:** ca. 1,34

Storage: keep tightly closed and protected from cold, frost, UV rays and heat in a ventilated place.
